PHONE 110, PONOKA

Attorney-General  
at Wood River

(Contributed)

Wood River hall was crowded to the doors on the night of April 5th by an enthusiastic audience which assembled to hear the Hon. J. E. Brownlee, attorney-general of Alberta, who represents the Ponoka constituency in the Provincial Legislature.

After an excellent musical program, the chairman, C. C. Reid, introduced the speaker in his characteristic manner, remarking, "I am up to present the representatives of the farmers have been quite able to 'deliver the goods.'

The Attorney-General remarked that this was his first attempt to make a political speech, but the fact that the newspapers have been for the most part hard to infiltrate it to the government made it necessary for him to come before constituents with the facts which have been either suppressed or distorted in so many cases.

He began with a statement summarizing the work of the independent auditor, he outlined some of the difficulties the Farmer Government have to face, with a legacy of debts and enormous increases to the debt of the provinces left by the previous administration on Aug 15th last. There was a shortage of \$5,000,000 expended beyond amounts received, and \$17,000,000 was added to the public debt last year alone. Instances of wasteful extravagance were pointed out, but there were no instances indulged in, and the speaker laid the blame on the political party system rather than the individuals concerned.

In the course of his talk on the history of the province he said we have a government which takes the people into its confidence, and giving them the facts inviting the electors to study the problems which their representatives must solve. And not alone political, but all the other educational features of the U.F.A. were emphasized as more necessary than ever, so that the farmers have succeeded in their political campaigns. There is greater need than ever before of increased interest and enlarged membership for the U.F.A.

Not only the U.F.A. representatives, but independent members, and the opposition were highly complimented for they cooperated to pass the largest amount of constructive legislation yet seen at any session of the house. As the most pressing and urgent need of action was found in the situation throughout the state, this was the first problem to receive the attention of the government, and for the first time a really businesslike solution has been applied. The Highway Bill was closed out as being one of the most important of the session, and another bill making the enforcement of the Liquor Act more simple.

In answer to questions the Attorney-General explained the Dryspirit Act, and mentioned which the member of the house was chosen. A new departure in the way of keeping campaign pledges was described, a system having been devised to keep future pledges of the new legislature in the hands of the entire legislature, rather than having it originate with the cabinet as at present. The principles upon which the government is taking a stand and more representative democracy were outlined, much to the satisfaction of the audience. People were urged to demand efficiency and business-like administration from the government rather than personal regard.

It is safe to say that never before have the people of the Ponoka district given a closer view of the working of their own government, and the approval of the audience was expressed by standing and singing "For He's a Jolly Good Fellow" at the close of the meeting. After singing "The Star-Spangled Banner," the audience proceeded to shake hands with the Attorney-General, and there were many expressions of delight at the meeting at the end of the session.

The Hon. Mr. Brownlee left for east, where with Peter Greenfield, he will confer with the Dominion Government in regard to the proposed Boundary Commission. On his return he expects to address other meetings in the Ponoka constituency.

### U.F.A. NOTES

—

On Tuesday, April 4th, Mr. and Mrs. Arthur Elston gave an opyster supper to the Grand Meadow U.F.A. and U.F.W.A. locals at their home. A number of friends and members were cut from Ponoka, about sixty persons in all being present. The meeting was arranged as a farewell to Mr. and Mrs. J. J. Stewart, as the couple was leaving for the west for Washington, he being a director in the local, while Mrs. Moyer was serving her second term as president of the women's auxiliary.

As evidence of the esteem in which the men of the U.F.A. held the man, the horses of the U.F.A. presented her with a silver rose basket with the name and number of the local also with the initials of the organization.

Mrs. W. Larsen, the succeeding president, made the presentation in a neat speech, and Mrs. Meyer responded with thanks.

The men's luncheon meeting consisted of the usual local business, at which a resolution was passed commending the "Palleßen" proposition for a creamery in Ponoka, and voted subscription in advance of the opening of the new creamery.

Supper was served at midnight.

This was supposed to be an oyster supper, but from the many oysters which had been served, it looked more like a banquet to royalty. Talk about hard times, however, was hard to come by, and the goobytte began to be said, and all left feeling that Mr. and Mrs. Elston were in the front of the hearts of their neighbors, and wishing Mr. and Mrs. Meyer all success in their new home.

### Crystal Springs

Sunny Alberta to be sure! The people of Crystal Springs are just waking up after their long winter's nap, reflecting over the fine spring weather, and looking forward to turn over, once more, the soil from which they hope to reap, if still goes well a bountiful harvest.

On Friday evening Mr. and Mrs. Elston, after spending a pleasant winter at the coast and other parts of the United States.

A most enjoyable time was spent at a short time ago in honor of Mrs. Elston, O.E.A.'s eighteenth birthday.

Cards, games, dancing and a sumptuous supper were the events of the evening.

The hook of the old tin Lizzie had been heard again throughout the land.

Ogilvy Elston motored to Ponoka Friday last.

Mr. Geo. Twiss called on Mrs. Elston.

Davidson's new barn is nearly completed. Hurrah! boys, get ready for the warning.

A jolly crowd gathered at the home of Mr. and Mrs. Hains Ogilvie on Tuesday evening. The evening was a surprise to Mrs. Ogilvie in particular, as she had good reason to be worried.

Miss Mrs. Avila was spent Monday evening at the home of Mrs. Elston.

A number of Crystal Springs young people took in the play at Home Glen on Friday evening, and all report a good time.

Mrs. Chris Collins and daughter, Marcell, spent Friday evening at A. Elston's.

Mr. and Mrs. Swan Burd spent Saturday with Mr. and Mrs. G. R. Bettis.

Geo. Twiss met with what might have been a section agent, but we are glad to hear that he is doing as well as can be expected.

Mr. and Mrs. C. B. Davidson are the proud parents of a baby girl.

The boxing match held at the new arena on the hill a short time ago turned out to be a grand success.

The first baseball game at Crystal Springs will be able to boast of some choice boxes.

Style, of Edmonton, is still in our midst.

Frances Preston has been busy with her buzz saw in our neighborhood.

All kind friends and neighbors turned out and assisted getting the new hall ready for the opening.

Everyone is welcome to the new hall.

All are glad to welcome a new neighbor.

Mr. and Mrs. Elston will take charge of the troop.

The Wolf Cubs will be under

Mr. James' command.

The first Ponoka troop had a

bike on Saturday in company with

the Wolf Cubs.

There was a good number of members,

and an enjoyable time was had.

Parades and picnics will be held

at the hall as usual at 3 p.m.

On Thursday, April 30th, Scout

James will give a lantern

lecture on Scout and Wolf Cub work.

The picture will be given

at 3 p.m. on Friday, May 1st.

It is hoped the latter will be

available for the former.

The latter will be available

on Saturday, May 2nd.

Parents and boys who are

interested in the movement are

cordially invited to attend.

### Morningside

—

A very pleasant time was spent last Monday evening in the church when the three organizations—Fraternal Union and Morningside—assisted and spent a social evening together on the eve of Rev. Mr. and Mrs. Stewart's departure for a new field of labor.

The worthy couple have labored among us for the past three years, and were greatly beloved by all.

A very interesting programme of songs, recitations and violin music was given, after which Mr. and Mrs. Stewart were presented with a well-filled purse. The recipients were taken completely by surprise, and Mr. Stewart made a very fitting reply.

Refreshments were served by the ladies, and at a late hour the gathering broke up, all wishing his reverence and family success in their new home in Castor.

Rev. Mr. McRae, of Edmonton, preached here last Sunday, and will also occupy the pulpit next Sunday at four o'clock.

Mr. and Mrs. Stewart from home attended the entertainment at the Bala Lake school last Friday evening, and were delighted with the programme, it being one of the best ever put on in that district. Proceeds, \$35.

### PONOKA SCHOOL MINUTES

—

Ponoka, April 14, 1922.

The Board of Education met in session on above date, all members being present, with Chairman Durkin presiding.

Minutes of last meeting read and approved.

Miss N. James, B.A., was present with a report that the teachers suggest that, to increase the percentage of attendance in the public school, all classes having 91 per cent. attendance or over get away at 3 p.m. on Fridays during the succeeding month (no recess).

By Cummings, that two extra keys be provided for the school door, carried out.

Communications—By Cummings, that the secretary write stating that F. Bowen was employed as a teacher by the Ponoka School Board from 1st January to 30th June.

By Cooper, that Mrs. Crawford be paid at the same rate as Miss Laycock for teaching from 27th to 31st March inclusive.

The secretary advised that Mr. E. O. O'Connor and uncertain if they are willing to exchange the dark strip for heavier board.

By Cooper, that the property committee attend to such repairs and improvements to the school grounds as they think necessary.

A. G. Glendinning, Secy.

### SCOUT NOTES

On Friday, April 7th, a lecture, illustrating the Indian tribes, was given in the Indian Hall, Ponoka, on the subject being "Scouting for Boys."

There was a very good audience, and after the meeting Superintendent James, who gave the lecture, was asked if any boy could be interested in the matter to come for a short discussion.

As a result, it was decided to start a troop of Boy Scouts and a Pack of Wolf Cubs, with Pleasant Hill School as head quarters.

The first meeting will be held on Friday, April 21st. Until James can find local workers he will take charge of the troop.

The Wolf Cubs will be under

Mrs. James' command.

The first Ponoka troop had a

bike on Saturday in company with

the Wolf Cubs.

There was a good number of members,

and an enjoyable time was had.

Everybody is welcome to the new place.

All are glad to welcome a new neighbor.

On Saturday, April 20th, Scout

James will give a lantern

lecture on Scout and Wolf Cub work.

The picture will be given

at 3 p.m. on Friday, April 17th.

It is hoped the latter will be available

on that date, the place of meeting will be announced in the Herald of April 20th.

Parents and boys who are

interested in the movement are

cordially invited to attend.

## USEFUL FOR OVER 500 PURPOSES

Gillett's Lye can be used for so many purposes that their enumeration here would be impossible. For example, Gillett's Lye can be used for making soap, in washing dishes, also as a disinfectant. For softening hard water. As a means of removing grease and smoke stains. These are only a few of its many uses, but they serve to indicate what has made Gillett's Lye such a general household utility to-day.

## Decline Substitutes.

## Made in Canada.

## Assets And Liabilities

The importance in fact the necessity of any man engaged in business having an accurate statement of his assets and liabilities is universally recognized. It is essential that such a statement be revised from time to time and kept up to date, and the latest statement compared with previous ones at least once yearly, to determine whether financial improvement is being effected, or if there is even a loss.

Such a statement is of first importance to the business man in all his dealings with his bank and with his creditors. Without such a statement a bank will not make loans, nor can a man establish a satisfactory rating for himself.

In determining the financial standing of a man by such a statement, which is regarded as the most important, his assets and liabilities, it appears to be generally believed that a man's financial standing is revealed by his assets. But this is not so. Of course, his assets have a bearing on the subject, but it is his liabilities which more clearly indicate a man's financial standing.

Liabilities can only be known by a realization of assets. Assets, on the other hand, may appear frequently do in the process of realization. A statement of assets, therefore, usually represents something of greater value than is actually possessed and allowance must be made for this. Liabilities, on the other hand, may be understated, quite incidentally, too, because a liability may be of an indirect character and contingent on something which may not yet happen. But it may happen, and must therefore be taken into account.

The outstanding difficulty in Western Canada today is not that the average farmer's assets are not good, but that his liabilities are too great; that while his assets remain on his account at the present time except at enormous loss, his liabilities have increased to a point where he cannot meet them.

One lesson to be learned from the experiences of the past few years is the importance of ever-vigilant care in insuring liabilities. There is such thing as being cured, rather than healed, with too much credit! A liability once incurred, must be discharged, regardless of ability to realize on assets. The same rule applies to a liability that should therefore be guarded against all along the line, and every prudent precaution taken to prevent oneself against the ultimate time of payment.

But it is not solely in the realm of liabilities that a person should make a close study of their assets and liabilities, but more particularly their liability to others. Every man and every woman has a liability to his or her own family. In addition to those they have certain moral and social responsibilities. They may have the assets of good health or a splendid education, or wealth or gifts of leadership, or intangible abilities. But they may also have the liability of an unmerciful temper, or the faculty of making enemies rather than friends, or a generally disagreeable disposition. And one such liability can affect all areas when it comes to permanently establishing oneself in the various realms of negligence and in the ability to render service in a community.

Cultivate your assets and protect them too. You can have an asset in a strong, healthy body and upon this are building your various assets, safety, health, etc., but you can also have an asset in your wife, your children, your home, etc. If either of these assets is lost, it may disappear. But while cultivating and protecting your assets, give even closer heed to your liabilities. They will mar everything unless they are reduced and ultimately eliminated. Pay off that uncoverable debt, that caustic tongue, that mean disposition, just as rapidly as you possibly can.

Remember your liabilities? Keep close tab on them! Check them up frequently, and if you cannot find a lessening of liabilities you have good reason for alarm. Unless overcome, whether they be of the financial or other kinds, they will swamp you in the end.

## Distance Traveled in Dancing

## Brave Deeds Museum

Dancers are Ready Marathon Athletes Says Statistician

Some statistician estimates that the average footloose traveler about one mile in ten miles, while, in the case of others, about a dancing couple cover a mile in 20 minutes.

He found that dances, at a ball which lasted from 10 p.m. until 5 a.m., made 56,000 steps, amounting to a distance of 10 miles, and some then were women who had in their high-heeled shoes who would never walk a hundred yards in the street, preferring a motor car.

A dancing master, or a footloose meter, reckoned that he had made about 6,750,000 two-foot steps in a year.

**Eastern Salmon is West**  
A shipment of eastern salmon, ocean salmon eggs, have recently been made from the Ontario hatcheries to the Dominion Department of Fisheries in the Cowichan Lake hatchery, Vancouver Island. It is proposed to introduce the fish into the waters of the North Pacific waters, or the three great salt water fishing areas in the world—North Atlantic, North Pacific and North Sea. Canada controls one-half of the two last.

Something like 15,000 sturgeon are expected to make the ordinary run of chum.

**Motor Freight Handlers**  
Transporting Grain to the Railway Motor Freight Trucks

There have been handled 1,200,000 tons of freight in the United States last year, according to the Automobile Chamber of Commerce. It is slight, if not a decided change in the number of tonnage and in miles driven, but the same amount goes to build grain elevators in districts that are ten miles or more from railway facilities, transporting the grain to the railway stations to market.

The need for good roads is constantly increasing, and the motor truck, with its really good road, safely constructed, is stand up under heavy loads—*Shakleton Star*.

**Suggests Retaliatory Tax?**  
The Fording tariff bill does not seem very popular in the United States, especially New England, according to Premier Taschereau, of Quebec, and the provinces Government, in raising the tax on all Canadian goods, Ottawa will have to impose an exportation duty on pulpwood, the Premier thought. This would greatly inconvenience the Americans, who have not got sufficient wood in their territory for their great demands.

**Fax Farming in B.C.**  
An addition to the farm documents in ranches previously existing in British Columbia, has been made by the establishment of a tax ranch in the Saanich district.

Before being sworn, advance agents by about a cent for a distance of many miles, to locate a new residence for the broad.

**Use Minard's Liniment for the Flu**

## Therapeutic Value of Radium

It is Not a Failure When Used Intelligently Declares British Physician

Dr. A. E. Hayward Pinch, medical superintendent of the Radium Institute, in his report of the work of the institution for last year, conchats the idea that radium has no therapeutic value. He declares that this theory originated in England, meaning that informed practitioners having very little personal experience.

"Radium," he declares, "is not a failure when used intelligently and scientifically and applied to the right disease." Those conditions which experience has shown are still not to its action. No honest worker claims, or has ever attempted to claim, that radium is to be regarded as a panacea for all diseases, for malignant and non-malignant diseases, and much more research and clinical work be done before it will be justified to use the word 'cure' even in selected cases of malignant tumours.

It is best, therefore, to speak only of 'arrest of the disease' and this can truthfully be affirmed in very many instances. Patients whose arm or leg has been amputated and who would have suffered agony, have been enabled by radium treatment, to live for many years in comparative comfort after all the known resources of medicine and surgery have been exhausted.

In "the present moment" states Dr. Hayward Pinch, "the institute case-sheets comprise the names of many patients suffering from recurrent, inoperable malignant disease who have had a long history of treatment; some seven, eight, nine or ten years ago, and who are now leading useful and comparatively healthy lives, the disease having been rendered quiescent by treatment which I consider to be a cure."

Since the radium institute was opened in August, 1911, 7,750 patients have been dealt with and nearly 100,000 treatments administered.

During the past two days I have conversed with prominent business men, including bankers, grain dealers, millers and real estate men who are directly or otherwise interested in emigration. I have gone into the details of the Canadian railway and have examined letters from thousand of express agents, dentists, officials connected with the bank and employees of the Natural Resources Department of the Canadian railways and have examined letters from thousands of persons who have bought or sold land in the western provinces.

Tenant farmers who find themselves unable to continue payments on live hundred dollar per acre farms in the Eastern States, are turning to the Canadian prairies this year and probably in increasing numbers for several years to come. Many of them have little cash, but most of them have enough to make a start. They buy large loads of farm implements, household goods and cattle. Many, however, will make small payments on farms they purchase.

I have interviewed men in this gateway as H. A. Garret, Dominion Government agent here; A. H. Davis, head of the National Railway Natural Resources Department of St. Paul; J. K. M. McLean, district representative of the Canadian Pacific agricultural resources department; Mr. W. C. G. McLean, superintendent of Canadian Pacific natural resources agency of the Canadian Pacific, and the Chinese.

Since the radium institute was opened in August, 1911, 7,750 patients have been dealt with and nearly 100,000 treatments administered.

During his travels Lord Northcliffe has rendered great services to the Empire. He has earned the gratitude of Australia by presenting a large sum to the Red Cross Fund.

He has also given a large sum to the Canadian Pacific railway, and has told the blunt truth about India. He has disclosed the tollsomes lives led by Britons in Malaya, and he has exposed the Palaces of the rich in the Americas.

The Chinese, who help him to conduct these movements, are to be a very considerable movement of desirable farm emigrants from the States to Canada. They believe that any plan adopted to encourage or help farmers from the prairie farm and dig his living out of the earth and not obstructed by federal immigration laws or red tape.

Of course, there are talkative titles of the sun. A factor in the improved view taken of emigration to Canada down here, is the increased price of grain and the rapid approach of the Canadian dollar to par.

The council recommended that the Government should make efforts to familiarize intending immigrants with the "actual conditions in Canada and with the rates and regulations restricting admission at the Canadian frontier." It is recommended that as feasible every immigrant should undergo a medical and mental examination before embarkation and a medical adviser with psychiatric training be retained on the staff of the London office.

**Sciatica for Years**  
But is Well Again

WHY C. LACHANCE RECOMMENDS  
DOOD'S KIDNEY PILLS

Quaker Men Relieved of Long Suffering Starts Praised of Dodd's Kidney Pills

Petite Valence, Gaspe Co., Quebec, a woman who had been a well-known emigrant here is shouting the praises of Dodd's Kidney Pills.

"My trouble started from a cold, I perspired a great deal, and while I was sweating I began to feel pain in my kidneys."

"I once had a friend visited me and as a result of their conversation my wife said, 'You must try Dr. Wm. Dodd's Kidney Pills.'

"I had not much faith in what I did, but I took them and they helped me a great deal. I had been ill for nine months ago. I was surprised to hear my wife say, after taking the pills, 'you are doing me good.' A week or so after that I certainly believed they were doing me good. I was not able to sleep well, and I seemed bloodless and her skin was sallow. She was weak and listless, and could not get up without assistance.

"She hardly ever moved out of the house as she became so short of breath. I took her to a doctor during one of her dizzy spells which she said were becoming more frequent.

"The day I arrived home I visited a doctor who I had not seen for a long time. He said, 'I am not a doctor, but I have been a physician for many years.'

"One of the passengers was a woman who had been ill for a long time. Her husband said, 'I am not a doctor, but I have been a physician for many years.'

"One of the passengers was a woman who had been ill for a long time. Her husband said, 'I am not a doctor, but I have been a physician for many years.'

## Gifts That Last

Easter, festival of spring is everywhere a time of adornment. Nature provides new dress for every growing thing; the sky is more brightly blue, the birds are gayly feathered.

Personal adornment at Eastertide is natural and in harmonious keeping with this season of gladness, and the bit of jewelry or some little accessory of dress becomes part of the Easter costume. The setting of the Easter table also suggests lustrous silver and glass to fittingly accompany the joyous hues of springtime flowers.

## Local News.

Friday, the 14th, being Good Friday, it will be recognized as a holiday, and all places of business will be closed in town.

E. E. Woods, of Calgary, has been visiting with his parents for a few days the past week.

Mrs A. E. Graham and Mrs G. E. Clarke were weekend visitors in Edmonton.

Mrs T. J. West spent a few days at Kerrobert, visiting with her daughter, Mrs J. C. Beck.

J. H. Stewart has opened a wood work repair shop just north of the feed mill on Railway Street.

Mr and Mrs John Laycock returned from their visit to the coast on Thursday. Mrs Laycock is much improved in health.

Geo. Henderson, of Glen Hewitt, left Monday for The Pas, Manitoba, where he expects to spend some time prospecting in that neighborhood.

The town financial statement is given in this issue. Interested parties should read it and become conversant with affairs.

Many residents in the Biemaruk district will regret to learn of the death of Mrs Frank Hoffman, which took place on Saturday, April 1st, at her home in Edmonton. The family resided in the Biemaruk district a number of years ago, and the deceased had many friends among the old timers.

Church union has been consummated in Lacombe. The pious and devout members of the Methodist and Presbyterian congregations have long contemplated such a movement. There was the usual heart-searching and prayerful meditation before such a dire step could be taken, but now all is well. The vote was unanimous in both congregations.

At a meeting of the Ponoka Board of Health was held in the council chamber Monday evening—Dr. Graham, chairman; Mayor Graham, J. C. Bell, C. H. Cummings and Geo. Gordon, were the members present. W. R. Ferguson was appointed secretary and Constable Dave Jones sanitary inspector. Complaint was made regarding the condition of the dump grounds, and that the rules governing them were not being observed. The inspector was instructed to take action when necessary. It was suggested to have a "clean-up week" at the end of this month.

A meeting of the Ponoka Board of Health was held in the council chamber Monday evening—Dr. Graham, chairman; Mayor Graham, J. C. Bell, C. H. Cummings and Geo. Gordon, were the members present. W. R. Ferguson was appointed secretary and Constable Dave Jones sanitary inspector.

Complaint was made regarding the condition of the dump grounds, and that the rules governing them were not being observed.

The Ferrybank postmaster has asked us to state that there is a great deal of mail matter lying at his office, which has accumulated since the Biemaruk office was closed.

It would be well for parties who were in the way of getting their mail at Biemaruk to make enquiry, otherwise the unclaimed mail will be forwarded to the dead letter office.

What a difference a few years make. Twenty years ago there were 10 cents a dozen, milk 5 cents a quart, the butcher gave liver away, the hired girl received \$1 a week, and did the washing, women did the laundry, men did the mending, play "pin and take," or shinny men wore whiskers and boots, laborers worked ten hours a day and never went to strike, the tips for grafting were to water, and the grafting was unknown. Now every one rides in automobiles or trucks, struts his neck looking at airplanes, plays the piano with his feet, and the girls sing grand opera on a phonograph, has discarded woolen underwear, complains about not having liberty to

G. L. James has opened a real estate office, and solicits listings.

The problem of unemployment should be about solved, as many of our farmers are in dire need of help.

ERICKSON—On Saturday, April 13th, to Mr and Mrs Roy Erickson, a daughter.

SPEECHLEY—On Monday, April 13th, to Mr and Mrs W. Speechley, a daughter.

Quite a good deal of town real estate has been changing hands of late.

There will be a dance for the benefit of the baseball club on Wednesday evening, April 19, in the Empress Theatre. It is hoped that there will be a large turnout as the club requires financial support. Secure your dance ticket and help the boys along.

The dance at Brooksfield hall on Monday evening proved a most enjoyable affair. Not only were immediate neighbors and relatives in attendance, but parties from town and surrounding districts were much in evidence. Red Deer orchestra gave entire satisfaction, while the excellent hall floor was much commented on. Of course the bigger show was up to the mark, and altogether the good people of Brooksfield are to be congratulated on their enterprise. The proceeds, which were large, go towards the hall building fund.

All U.E.W.A. members are requested to meet at the Alberta Hotel on Saturday, April 22 at 2:30 p.m., for the purpose of promoting social work among the locals. A short program will be given.

There will be a meeting of the tennis club in the Bank of Commerce chambers on Tuesday, April 18th, at 7:30 p.m.

Parties desiring a good engineer for tractor or repair work should communicate with A. Wallace, Ponoka.

The Sravasthi club danced, announced for the 21st, the 29th.

100 Bushel Red Bob Wheat for Sale. Apply, C. W. SIEGERTSTROM.

A green hat was taken from the Brooksfield hall by mistake. Would the party who took the hat please phone 911, and oblige.

What a difference a few years make. Twenty years ago there were 10 cents a dozen, milk 5 cents a quart, the butcher gave liver away, the hired girl received \$1 a week, and did the washing, women did the laundry, men did the mending, play "pin and take," or shinny men wore whiskers and boots, laborers worked ten hours a day and never went to strike, the tips for grafting were to water, and the grafting was unknown. Now every one rides in automobiles or trucks, struts his neck looking at airplanes, plays the piano with his feet, and the girls sing grand opera on a phonograph, has discarded woolen underwear, complains about not having liberty to

put his foot on the rail any more, starts at big accounts, buys cigarettes, drinks beer, buys and smokes, blame the high cost of living on politicians, never goes to bed the same day he gets up, and he thinks he is having a heck of a time.

Films Developed—6 prints, any size, 25 cents. 21 hour service. Central Finishing Co., Camrose Alberta.

Do not wait! Do it now! Have your eyesight examined by M. M. Mecklenburg, a specialist of 30 years, and who has been visiting Ponoka for the past year again at Royal Hotel on Friday April 21st. Charged moderate.

Good meals, clean comfortable rooms, and good service can be had at the Alberta Hotel, under new management.

Mrs JAS. B. BEATTIE, Prop.

\$5 to \$10 DAY gathering Beets, carrots, Radishes and Herbs in the fields and roadside; book and pieces free. BOTANICAL, 8 West Haven, Conn.

## Soothes Irritable Throat, Relieves Bronchitis Quickly

No Drugs to Take, No Medicine to  
Upset the Stomach. Just  
Breathe It - Tastes Great!

Cough tea - a hot cup is relieved by Catarhozene—wait one minute and you will feel its soothing influence on a sore throat. It is safe to use because with "Catarhozene"—it is effective. The big thing to remember about Catarhozene is this—you just breathe it. It is the most effective and full of the purest healing agents that is right in the greatest healing agents known. It relieves coughs, sore throats, vapor dispels all sores, kills all germs, gives nature a chance to do her work. Colds and throat troubles can't last if the pure healing power of Catarhozene is breathed over them. Disappear bronchial attacks will cease, coughs after a cold will be gone in a thime. The price—Complete outfit for two months, price \$1.00, smaller sizes or, the Catarhozene Co., Montreal.

## Lost Cities

Finding Incredible Ruins of an Ancient Civilization

Unless you study such publications as "The Story of the Royal Geographical Society," you have no idea of the number of people who are occupied in "digging for history."

In the sands of Egypt, the bush of Central Africa, the jungles of Ceylon and Malaya, and the tropics of South America, the archeologists of the world are constantly at work digging for the relics of lost civilizations.

During the war this work naturally sly came to an end, but now that normal life again threads are being spiced and this fascinating work is again in progress.

Wonderful finds have been made in the past, but they are as nothing compared with what the future is bound to bring. The efforts of the agencies of the U.S.A. for opening the market for surplus Canadian cattle—Federal department of agriculture.

Coordinating of shipper interests.

Federal department of agriculture.

War minister's directions to all departments—Provincial departments of agriculture.

Department of labour.

Department of health.

Department of justice.

Department of national resources.

Department of national resources—Federal department of agriculture.

Prepared food.

Provincial departments of agriculture and agricultural institutions.

Stock shipping laws to reduce shrinkage—largely through local organizations, stockyards and railways.

Transportation—Provincial departments of agriculture.

Prepared food.

Provincial departments of agriculture and local cattle associations.

Publicity—Provincial departments of agriculture and local cattle associations.

Advertiser and sale of public cattle.

All federal and provincial agencies.

Instructional work respecting production costs and qualities—Federal department of agriculture.

Research.

It is to be hoped that it will be immediately undertaken by the federal department of agriculture, the agricultural departments of each of the four western provinces and all agricultural departments as well as provincial government for the promotion of the growing of the live stock industry.

The backward and stupid are left to chaff themselves or die.

inhabit this region have no knowledge of the workings of stones.

In Turkey, on the right bank of the Amow Darla, and near the Kharhan town of Karki, is an underground city carved in the solid rock. Here is an immense labyrinth of galleries, 100 feet wide and three stories in height. Pots, urns, vases and coins have been recovered, but much remains to be explored.

Ceylon is full of hot or partly buried cities, affording work for archaeologists for many years to come, while in further India and Annam the jungle hides ruins of such amazing dimensions that even the world over the map of old Egypt—Christopher Beck in the Mail, London.

## To Help Livestock Industry

Dominion and Provincial Departments of Agriculture Will Cooperate Together

With the allocating to different organizations and governmental departments of the various matters decided upon at the (two-day) meeting of the Dominion and Provincial livestock commissioners of the four western provinces, and representatives from various organizations of Canada, the work of the conference at Saskatoon was brought to a successful conclusion.

As a result of the two-day conference certain pronouncements were made looking to the bettering of the livestock industry of Western Canada and the provinces were ready to put into effect these pronouncements.

In a summarized form, these agencies and pronouncements are as follows:

—Market requirements—Federal and provincial departments of agriculture.

—Newspaper advertising—U.S.A. for opening of market for surplus Canadian cattle—Federal department of agriculture.

—Coordinating of shipper interests.

—Federal department of agriculture.

—War minister's directions to all departments—Provincial departments of agriculture.

—Transportation—Provincial departments of agriculture.

—Publicity—Provincial departments of agriculture and local cattle associations.

—Advertiser and sale of public cattle.

—All federal and provincial agencies.

—Instructional work respecting production costs and qualities—Federal department of agriculture.

—Research.

It is to be hoped that it will be immediately undertaken by the federal department of agriculture, the agricultural departments of each of the four western provinces and all agricultural departments as well as provincial government for the promotion of the live stock industry.

The backward and stupid are left to chaff themselves or die.

Everyone has heard of the vast ruins of Zimbabwe, in Southern Rhodesia, the golden city, which is said to have been built by the Order of King David.

North America does not in almost unknown bush, lies another and even greater city, with similar towers, massive brickwork and stone piers on the solid rock. Whether, though, it is the solid rock or not, or no history has been done there.

In the "Journal" of the African Society for July, 1906, there are some maps and drawings of the city of Zimbabwe, and the name "Natalia" is mentioned.

Some twelve feet beneath the present native town have been unearthed wonderfully worked carvings in quartz, bronze castings and many other objects, the products of a civilization that in long ago times had a civilization apparently equal to that of Greece. The natives of today who

have heard of the vast

# Government Is Taking Active Steps Regarding Wheat Marketing Plans

**Wani British  
Embargo Removed**

**Alberta Breeders Ask Urgent Reciprocal Trade With States**

Calgary, Alta.—At the annual meeting of the Alberta Cattle Breeders, held here, resolutions were passed urging the Dominion Government to negotiate immediately with the American Government for reciprocal trade relations in livestock and livestock products and to continue to press for the removal of the British embargo against the entry of Canadian cattle into the United States. It was also voted to remove the embargo, arrangements made for shipment of Canadian cattle for slaughter to a certain point in Great Britain under a permit system, thus making it possible to have Canadian beef offered to the British consumer as fresh killed beef.

The association went on record in favor of the dehorning of all commercial cattle.

Transportation problems took up considerable attention at the hands of the cattle breeders. A resolution was passed asking for further reduction in rail and ocean transportation costs.

Another request went to the rail companies asking that throughage rates be allowed feeders who ship their stock cattle and sheep into sailing areas for a 21-day period and then send them on to market.

## Attempted Bank Robbery

Winnipeg—An unsuccessful attempt was made by two young men to rob the branch of the Bank of Nova Scotia at St. James, a suburb of this city. One of the robbers first shot and killed the teller who responded for his revolver on being commanded to throw up his hands. His lead gun grazed above the ear. The two men escaped.

## Report Was Exaggerated

London—Winston Churchill, the colonial secretary, stated the steamer "Urgency" which was set off from the Irish coast last week by raiders, who stole its cargo in some unknown place, contained no more than 25,000 pounds of ammunition. The vessel originally was bound for Dublin, Ireland, when it was captured by the rebels on being commanded to throw up his hands. His lead gun grazed above the ear. The two men escaped.

It pays to patronize home industry, buy from the merchants in your town.

# FRENCH DELEGATES TO GENOA WILL NOT BE ARMED WITH FULL POWERS

**Paris.—**The French delegates are going to the Genoa conference without the necessary development of full powers at Premier Poincaré's final instructions to them. This decision of the Government is being much discussed in political circles, where it is looked upon as likely to develop complications.

It is remarked that the Allied premiers, when they met at Cannes and decided to call the conference, insisted that the Russian Soviet Government must send delegates with plenary powers. The Russian delegation, therefore, in its turn, would be justified in taking exception to the presence of the delegation of an important state without full powers.

It is explained by persons close to the premier that he was advised to make strict reservations regarding the powers of the French delegation because of the sensitiveness of par-

## Angora Accepts Peace Terms

Indial, Minn.—Water Hooper, of the Duluth Club Club, amateur single scull champion, has entered his name in the English Henley race to be staged on the Thames, in London, June 26. It was announced here.

Vancouver—The Nippon Kaihatsu, Limited, a Japanese bank here, operated under a provincial trust company charter, has closed its doors. An association was made. It was said to be about \$225,000 and the liabilities, \$240,000.

# Mounted Police To Be Excluded From Scope Of Military Organization

Ottawa—After further discussion the bill to create a department of national defense went through committee stage in the House and stands for third reading. An important amendment excludes the Royal Canadian Mounted Police from the scope of the bill and the new department will then comprise the militia, naval and air force.

When this bill was last before the committee, objection was made to the inclusion of the Canadian Mounted Police. Do they not stand that it was essentially a civil organization. Hon. George P. Graham, who was in charge of the bill, himself moved the amendment and it was carried without objection. Another amendment was introduced to shorten the retirement allowance of officers to be retired. The original bill authorizes the Government in such cases to add from one to three years to the actual term of service. An amendment reduced the number which

they may be added to from one to two years.

Pics. for the retention of expert and highly trained military officers were made in the course of the debate.

When the vote providing for the inclusion of the Royal Canadian Mounted Police from the scope of the bill and the new department was taken, it was found that it would be impossible to effect as great economies through amalgamation if this department was excluded. He was aware that many members were of the opinion that the Mounties should be retained, but he believed that it would be greatly decreased, if not confined to the unorganized territories, but he questioned whether police could be left to the provinces at present.

## Only Formal Notice to France About Payments

London.—The British note to France concerning interest on France's debt to Great Britain, it was learned yesterday, was not an actual demand for payment of interest but a formal notice that the three years' suspension of interest had expired. Great Britain reserves the right of further action. Certain countries, it was said, notably Italy and Rumania, were promised two months' notice on any required cash payment to the United States in October. It became necessary that notice should be given.

## Protect Rights and Liberties in Ireland

Michael Collins Issues Statement on Behalf of Government

Dublin.—Michael Collins, head of the provisional government, in a statement says the rights and liberties of the Irish people will be protected by the Government of the Irish Free State if and when challenged or invaded by any disorderly element in the community.

Whether steps the Government might find necessary to take would be directed to the necessities of the Irish people, but he added, the action must always be based on such necessities, and it cannot be helped by continually these actions appear strange to me.

Publishing of news relating to the Irish republican army is prohibited by a notice issued by the publicity director of the army on behalf of the executive arm of the military, the Dublin corps, which is addressed to the Dublin newspapers and representatives of British and foreign newspapers and news agencies, follows:

"You are hereby notified that publication is made in any manner relating to the Irish republican army prohibited, unless it has been passed upon by the publicity department of the Irish republican army."

## German Tax Scheme Approved

Finance Minister Says Border Impediment Is Withdrawn [Parallel]

Berlin.—No nation ever taxes its citizens so heavily as does Germany. The Reichstag has given its final approval to a "border impedi-

ment scheme," said the finance minister, Hermann Hesse, to the deputies, in thanking them after the conclusion of the third reading of the measure which provides a minimum load of one billion gold marks and the adoption of which automatically makes effective fourteen major tax laws.

Herr Hesse declared the tax bill, which was introduced in March, was without parallel in history and would demonstrate to the world that the German people were prepared to assume the financial obligations growing out of the war.

New York.—The Kiwanis Club of New York, the largest club in the United States, will hold a luncheon next Saturday at a hotel here with a large and representative attendance. The object of the week is to promote in each country a better understanding among the nations.

Everyone present, including a group of 111 persons, Adelphi players were bound in different denominations, had a part in the service, including the remains of the Timothy Eaton Memorial Methodist Church, and followed the remains of the church.

Forces of Western Canada

Winnipeg.—Western Canada recently received the first contingent of its 1922 army recruits, who 500 men, women, men and children, arrived here.

Three hundred of the immigrants were from Europe and 50 from Russia, Minnesota. All these settled in the general area of the Manitoba share of these settlers with a farmer group of 111 persons. Adelphi players were bound in different denominations, had a part in the service, including the remains of the Timothy Eaton Memorial Methodist Church, and followed the remains of the church.
